

# TABLE OF CONTENTS

## HYDROLOGICAL SCIENCE AND TECHNOLOGY

Volume 14 Number 1-4

	<i>page</i>
<b>Design and evaluation of an Automated System for Acquisition of Velocity Data in Small Channels</b> <i>Keven W. King, R. Daren Harmel and Ron P. Whitis</i> .....	1
<b>Ground-Water Modeling: The Deterministic Methodology or Statistical Approach?</b> <i>Vincent M. Gorokhovski and Roman Kanivetsky</i> .....	9
<b>Multivariate Estimation of Extreme Flood Hydrographs</b> <i>Carlos Escalante</i> - 19	
<b>Investigation of the Over-Exploitation of a Major Alluvial Aquifer in Thessaly, Greece</b> <i>P.G. Marinos , M.J. Kavvas and V. Perleros</i> .....	29
<b>Grid-Size Effect on Watershed Hydrologic Simulations</b> <i>Zhongbo Yu</i> .....	39
<b>A Non-Linear Optimization approach to Parameter Estimation of Annual ARMA Models</b> <i>Jose A. Raynal-Villasenor and Adan Carro de la Fuente</i> .....	51

**Presentations Made at  
The Joint Conference of the International Association of Hydrogeologists  
and the American Institute of Hydrology, Las Vegas, Nevada, 1998  
*Gambling with Groundwater –  
Physical, Chemical, and Biological Aspects of Aquifer-Stream Relations***

<b>Applications of Numerical Models of Coupled Groundwater Flow and reactive Solute Transport in Groundwater Systems</b> <i>Javier Samper and T. Tianfu Xu</i> .....	61
<b>Groundwater Flow Modeling in Semiarid Evaporitic Closed Basins</b> <i>Javier Samper and Miguel Angel Garcia</i> .....	69
<b>Predictive Numerical Modeling of Artificial Tracers Migration in the Large-Scale (In Situ and Mock-up) Heating and Hydration Experiments of the Febex Project</b> <i>Javier Samper, Jordi Delgado, Jorge Molinero and Rcardo Juncosa</i> .....	79
